REST API Reference

Version: v6.41.0-rc19

LogZilla API schema

Base URL

The LogZilla API is available on your LogZilla server instance:

```
https://your-logzilla-server/api/
```

Replace `your-logzilla-server` with your actual LogZilla server hostname or IP address.

Authentication

The LogZilla API uses API key authentication. Include your API key in the request headers:

```
Authorization: Bearer YOUR_API_KEY
```

Endpoints

Browse the endpoint documentation below for detailed information about each API endpoint.
