

## LOGZILLA DOCUMENTATION

# /api/query/{qid}

REST API endpoint: /api/query/{qid}

REST API Reference · Generated May 3, 2026 · [logzilla.ai/docs/rest-api-reference/api-query-qid](https://logzilla.ai/docs/rest-api-reference/api-query-qid)

# /api/query/{qid}

## GET

**Summary:** Get results for existing query

Another page can be requested (except the first one) with "page" query parameter (this makes sense only for search query, other types don't support paging).

## Parameters

Name	Type	Required	Description
qid	string	Yes	
page	integer	No	supported only for search query (SearchQuery)
page_size	integer	No	Number of results per page (SearchQuery)
offset	integer	No	Pagination offset (SearchQuery)
add_geoip_data	boolean	No	Include GeoIP data in results (TopNQuery, LastNQuery)
actions_hint	boolean	No	Include action hints in results (SearchQuery)
add_trigger_data	boolean	No	Include trigger data in results (SearchQuery)

## Responses
