LOGZILLA DOCUMENTATION

/api/sec/{name}/events

REST API endpoint: /api/sec/{name}/events

REST API Reference · Generated November 6, 2026 · logzilla.ai/docs/rest-api-reference/api-sec-name-events

/api/sec/{name}/events

POST

Summary: Send test lines to one SEC instance

Writes the lines to the instance as if the forwarder had sent them; matching rules run their actions.

Parameters

Name	Type	Required	Description
name	string	Yes	

Request Body

```
{
  "example": "request body"
}
```
