REST API endpoint: /api/tasks

REST API Reference · Generated April 29, 2026 · logzilla.ai/docs/rest-api-reference/api-tasks

/api/tasks

GET

Summary: List tasks

You can filter tasks using parameters specified below. For any filter field that can get multiple options, you can specify them using comma-separated string (this will return all tasks belonging to user 1 OR user 2)

Parameters

Name	Type	Required	Description
owner	array	No	Multiple values may be separated by commas.
assigned_to	string	No	Filter by assigned to.
title	string	No	Filter by name.
is_open	boolean	No	Filter opened tasks
is_overdue	boolean	No	Filter overdue tasks
unassigned	boolean	No	Filter unassigned tasks
ordering	string	No	Which field to use when ordering the results.
page	integer	No	A page number within the paginated result set.
page_size	integer	No	Number of results to return per page.

Responses

200

POST

Summary: Create a new task

Request Body

```
{  
  "example": "request body"  
}
